*All plants must be native to Piedmont, NC

*All plants listed are perennial

*List is not exclusive, if there is a native plant you would like to use, approval may be given upon request and review.

Why Only Native Plants?

All Souls Natural Burial Ground advocates an eco-friendly, non-invasive burial and aspires to have the grounds reflect that mission. Native plants keep the ecosystem in balance by hosting and feeding native birds and insects. Many species will not recognize exotic or ornamental plants as habitats or food. Native plants are well suited to our wooded grounds and are less likely to spread and become a nuisance to surrounding properties. Planting native plant species makes it more likely your plants will thrive with minimal upkeep. A natural burial shows a person's commitment to the environment and planting only native plants helps continue that commitment by promoting biodiversity and ecological balance.

Native Plant Nurseries (Suggestions only, any nursery may be able to obtain a plant upon request)

Guilford Garden Center
701 Milner Drive
Greensboro, NC 27410
336-299-1535

Carolina Native Nursery
1126 Prices Creek Road
Burnsville, NC 28714
828-682-1471

Deep Roots Nursery
3666 Guess Road
Durham, NC 27705
984-329-7412

Elderberry Creek Farm and Nursery
4524 River Ridge Road
Pfafftown, NC 27040
336-499-3381

Growing Wild Nursery
1455 Arthur Teague Road
Siler City, NC
919-200-2877
